OBJECTIVE

Frontend Developer skilled in HTML, CSS, JavaScript, React.js, and UI/UX Design with hands-on experience in building responsive applications using Next.js and TypeScript. Experienced in building interactive web applications and game development using C and Unreal Engine. Eager to contribute to innovative projects and continuously enhance skills in responsive design, API integration, and Agile development environments. Strong problem-solving and communication abilities with a passion for learning new technologies.

SKILLS AND INTERESTS

- Programming Languages: C++, Java, JavaScript, TypeScript
- Frontend Technologies: HTML5, CSS3, React.js, Next.js, React Native, Tailwind CSS
- Backend Technologies: NestJS, Node.js, PHP, Laravel
- Databases: PostgreSQL, MySQL, SQLite
- ORM / Tools: Prisma, phpMyAdmin
- UI/UX Design: Figma
- Cloud & Hosting: AWS (EC2, RDS, S3)
- Version Control: Git, GitHub
- Soft Skills: Critical Thinking, Problem Solving, Team Collaboration

EDUCATION

2021 – 2025

Bachelor of Technology in Computer Science and Engineering

University College of Engineering, Thodupuzha, Idukki, Kerala

HIGHER SECONDARY EDUCATION

2019 - 2021

SAHSS Kalloorkad, Ernakulam, Kerala

CERTIFICATIONS

- The MERN Fullstack Guide – Udemy (Jun 2024)
Covered: React.js, Node.js, Express.js, MongoDB, REST APIs, Git, Deployment
- Python Mentorship Program – IEEE (Aug 2023)
Covered: Python basics, problem-solving, algorithmic thinking, data structures

PROJECTS

OUTBREAK FPS GAME

- An FPS (First-Person Shooter) game is a genre of video games in which players experience the action through the eyes of the protagonist, often in a first-person perspective.
- Unreal Engine is used as a powerful and widely-used game engine developed by Epic Games. It is primarily used for creating video games, but it is also applied in various industries like film, architecture, automotive design, and virtual reality (VR).

SQIDSERVE

- Designed and developed a comprehensive CRUD-based web application, specifically tailored to meet the operational needs of Akshaya centers in Kerala, featuring an intuitive dashboard for both staff and admin users to streamline workflows effectively.
- Successfully implemented advanced features, including seamless invoice generation, efficient wallet management, and robust real-time transaction monitoring, significantly enhancing the overall efficiency and accuracy of daily operations.

WORK EXPERIENCE

Full Stack Development Intern

Edu-versity (Remote) | Mar 2025 – Jun 2025

- Participated in a hands-on full stack web development internship.
- Developed and tested web applications using MongoDB, Express.js, React, and Node.js.
- Gained experience in building real-time features and working in collaborative environments.

Junior Software Developer trainee

MDigitz (Onsite) | July 30, 2025 – Oct 28, 2025

- Trained in full stack web development using Laravel, PHP, MySQL, and JavaScript.
- Developed and maintained dynamic web applications using Laravel backend and RESTful architecture.
- Assisted in debugging, testing, and optimizing applications for improved performance and scalability.
- Collaborated with senior developers on deployment workflows, database schema design, and version control (Git).

Key Projects:

Belmountie Furniture Website

- Designed and developed a responsive furniture e-commerce website. Implemented product listings, category filters, inquiry/contact forms, and an admin dashboard for content management.

FIG – User Directory Listing Platform

- Built a directory-based platform allowing users to register, create profiles, and list services. Integrated authentication, search and filter features, CRUD functionality, and admin control panel using Laravel.

Software Engineer

ABHRAM TECHNOLOGIES (Onsite) | Nov 2025 – Present

- Building mobile and web apps using React Native, Next.js, and NestJS.
- Developing backend APIs with Prisma and PostgreSQL.
- Implementing JWT authentication and RBAC.
- Managing file storage with AWS S3 and EC2 hosting.
- Handling offline data with SQLite and AsyncStorage.
- Monitoring network and sync performance.
- Collaborating on database design and Git-based deployment.

POSITIONS OF RESPONSIBILITY

- NSS volunteer : Coordinated and participated in community service events focused on health, education, and environmental awareness. Developed leadership and communication skills while organizing impactful programs.
- Coordinator in Tech fest:Has served as a programme coordinator in the EDUINO event.
